## Keep it Simple, Use Common Sense By Bill Lane

Julie Best, daughter of Bill Best, and her son Will have been busy sprigging the greens this week. The sprigs first have to be harvested from the nursery green. Then they are set in the ground on the greens to be repaired. This is a very tedious job that requires the sprigs to be set in the ground at just the right level or the mowers will scalp them. It takes several days to complete each green. They are doing a great job.

## Pro Shop News

### Consignment

Do you have extra clubs in your garage taking up space? Thinking about buying new clubs but don't like the high prices? Bring your used clubs to the Pro Shop. We will take newer name brand clubs in good condition and try to sell them for you. You will get 75% of the selling price, normally within a week of the sale. Ask anyone in the Pro Shop for details.

### Weekend Tee Times

Summer's here and we're busy on the weekends. Avoid the frustration of waiting for us to try and fit you in, or worse yet not getting a tee time, by either making your tee time reservations online, or calling the Pro Shop as early in the week as possible.

The new Wishing Well to cover the meter base was designed and built by Jarman Howell and his son Christian. They worked hard to get this completed. It is made out of Cyprus trees that were cut from one of the farms that will soon have a Puppy Dog Park. The lumber was then rough cut to make the Wishing Well
